

InRoads 202 Course Details

Course Title

CAE: INROADS - 202 SURVEY DATA PROCESSING

Course Description

This multiple day self-pace course introduces the WSDOT workflow for importing, processing, and delivering field survey data using Bentley's InRoads Survey application. This process will focus on WSDOT standard field survey data formats, tools, and procedures while working in the Bentley environment.

Learning Objectives

1. Operate the Bentley InRoads Survey application.
2. Set up a WSDOT standard working project, including the correct project defaults and survey preferences.
3. Import and process typical WSDOT formats such as RW5, SDR, and ASCII.
4. Adjust control traverses in InRoads Survey.
5. Generate a deliverable package for design.
