

2021 Q2 (Apr-Jun) Travel Times

Comparison to Previous Run – Sensor Differences

Comparing to 2021 Q1 trip reports, no sensor deviations occurred.

Data Use Differences

Comparing when data from sensors are used, there were no overall sensor use differences from the previous quarter.

Comparing sensor usage between common sections of trips this quarter showed that sensors are consistent in their use or lack of use overall as well as during individual months.

Other Issues

No other issues were noted during this quarter.
