RAMP AND ROADWAY TRAFFIC VOLUME REPORT – WHATCOM COUNTY

2024 SUMMARY REPORT

During 2025, the Transportation Management Center (TMC) of the Northwest Region created Ramp and Roadway Volumes Report for Whatcom County. Traffic counts were taken from January 2024 through December 2024 from vehicle detection loops.

The following interstate and state highways are included in this report:

- 1) I-5 from Samish Way to the Canadian Border
- 2) SR-9 from Sumas Ave to the Canadian Border
- 3) SR 539 from Badger Rd to the Canadian Border
- 3) SR-543 from H St to the Canadian Border

Average weekday volumes (AWD) were computed from Tuesday through Thursday data. AM and PM peaks correspond to the highest hourly volumes. If a peak occurred outside of 6:00 AM to 10:00 AM or 2:00 PM to 7:00 PM, it is indicated in the report with an asterisk (*). The peak times for those locations are noted in the appendix.

NOTE: All roadway drawings are NOT drawn to scale.

Special thanks go to the Northwest Region Transportation Management Center engineers, technicians, and interns for their work in compiling and analyzing the data for this report.

An electronic copy of the ramp and roadway data sheets contained in this report is also posted on our website at the following address:

<https://wsdot.wa.gov/about/transportation-data/travel-data/ramp-roadway-report>

APPENDIX

For this 2024 traffic volume summary report, the standard AM and PM peak periods are defined as 6:00 AM to 10:00 AM and 2:00 PM to 7:00 PM, respectively. Listed below are the ramp, collector distributor (CD), and mainline stations in which the AM and/or PM peak hourly volumes began outside the above peak periods. They are arranged by types and directions.

Route	Sheet No.	Location	AM	PM
